INDUSTRIAL PAINT

Versatile finishes available for all Industries

Valspar Industrial Mix offers a comprehensive coating range for almost all applications. A broad offering of binder technologies serve a wide range of industries throughout the world. The direct to metal properties enable some binders to be used without primers and sealers. This can amount to 30% of the total paint cost of a project. However the greatest savings found in the reduced labour costs. Labour is one of the greatest costs in painting. By reducing the processes involved, time is saved - therefore increasing productivity and reducing downtime

Efficient technology built for speed

To meet the high productivity demands of leading Original Equipment Manufacturers (OEM's), Valspar has developed special accelerated curing technology. This kind of technology has been integrated into the entire Valspar Industrial Mix product range. Labour time and production cycles are reduced through efficient direct-to-metal and wet-on-wet application techniques in addition to accelerated cure through. Being straight forward and easy to apply we believe Valspar Industrial Mix will help you get the job done faster and more cost effectively

Accurate colour achieved every time

Valspar Automotive offers the latest technology in colour tools to compliment the system. You already know what the colour is? Our colour retrieval system gives you easy access to a wide range of accurate colours from all over the globe. Readily formulated colour ranges include Australian Standard, British Standard, RAL, NCS, AFNOR and Pantone. Additionally our cooperation with the leading OEM's worldwide gives us access to the latest accurate colour information. Not sure of what colour you're after? Our Valspar Spectrophotometer and our Valspar Color Reader will define it for you in no time. Need some inspiration? Take a browse through the Valspar Rainbow Colour Case. Each with around 2,500 painted colour samples, you will have trouble making up your mind!

Durable coatings engineered to last

Valspar's expertise in the industrial sector as a global supplier to leading OEM's such as John Deere, Caterpillar, Massey Ferguson, Fendt, Valtra, Volvo and Iveco, guarantees the quality of our products. We strive to supply durable and hard wearing paint finishes that are needed to withstand the toughest conditions.
